AI ACCEPTABLE USE AGREEMENT FOR PUPILS

This is a promise about how I, a pupil at [name of school], will use artificial intelligence (AI) the right way. AI can help us learn a lot of cool stuff, but we need to use it wisely.

1. My promises on using AI

- **Using AI for learning:** I may use AI to help me learn, but I will always follow what my school and teachers say about when and how I can use it for my homework.
- **Being honest:** I will be honest about using AI for my work. I won't say work made by AI is all my own.
- **Checking AI's work:** When I use AI, I will make sure I look over its work to catch any mistakes.

2. How AI can help me learn

- **Making things more creative:** I can use AI to help me think of new ideas and be creative in all kinds of subjects.
- **Working together:** AI can give me and my friends ideas and help us with research when we are doing projects together.
- **Help from AI:** AI can support me and help me with my homework, explain things I don't get, and help me learn.

3. Things I shouldn't do with AI

- **No being mean:** I know I **must not** use AI to be mean or bully others. We should all be kind.
- **Thinking for myself:** It is important for me to think on my own and not just rely on AI for learning.
- **No copying:** I won't copy work from AI and pretend it's mine. I will always tell if I've used AI to help with my work.
- **No using information about my friends or my teachers-** I may use AI for my learning but I will not share information about my friends or teachers with AI.

4. Saying yes to this promise

By signing this, I'm saying I understand and promise to use AI the right way at our school.
