Maths	<u>Year 5</u> This website produces arithmetic questions for you to practise your skills. Use paper to work out the answers and then type them in to the box and press Mark when you have finished. You can go back to any wrong answers, try again and then press Mark and it will re-mark and update your score. If you would like more practice, pressing New will give you a new set of questions. The Year 5 questions include questions on work that you will be taught by the end of Year 5, so there is a link to the end of Year 4 questions as well. Year 4 Mathematics Arithmetic Paper - Compact Version Year 5 Mathematics Arithmetic Paper - Compact Version <u>Year 6</u> This website produces arithmetic questions for you to practise your skills. Use paper to work out the answers and then type them in to the box and press Mark when you have finished. You can go back to any wrong answers, try again and then press

	Mark and it will re-mark and update your score. If you would like more practice, pressing New will give you a new set of questions. SATS - Key Stage 2 Arithmetic SATS - Key Stage 2 Reasoning

IT	Year 5 In this activity, pupils will use the <i>Minecraft Adventure</i> on Hour of Code to develop their problem-solving and computational thinking skills. They will learn how to: • Understand and apply basic programming concepts such as sequencing, loops, and conditionals. • Use block-based coding to give instructions to characters in Minecraft and solve challenges. • Debug and improve their code when it doesn't work as expected. • Think logically and creatively to complete increasingly complex tasks. This activity encourages independence, perseverance, and creativity while making coding fun through the familiar Minecraft environment. https://code.org/minecraft Year 6 In this activity, pupils will use the <i>Minecraft Adventure</i> on Hour of Code to develop their problem-solving and computational thinking skills. They will learn how to: • Understand and apply basic programming concepts such as sequencing, loops, and conditionals. • Use block-based coding to give instructions to characters in Minecraft and solve challenges. • Debug and improve their code when it doesn't work as expected. • Think logically and creatively to complete increasingly complex tasks. This activity encourages independence, perseverance, and creativity while making coding fun through the familiar Minecraft environment. https://code.org/minecraft

Music	Year 5 and Year 6 Pupils to access work via the website Rhythmic Roots Musical Futures Online Username: dmsmusic Password: dmsmusic Pupils are to click on and follow the lessons under 'Module 1' Lessons involve reading about music notation, playing along with videos and learning how to read rhythmic notation symbols.
Food Technology	Get baking at home and increase your skills and confidence. Channel 4's Junior Bake Off. The Junior Bake Off open their applications from children between 9 and 15 years old at the beginning of March each year. If you would like to step into the famous white tent and show off your baking skills, then you could be a perfect future contestant. Practise the recipes you have been making at school and try some new one by visiting thegreatbritishbakeoff.co.uk/meet-the-junior-bakers-series-10/
Design Technology	Inspiring future engineers! The James Dyson Foundation, introduces young people to the exciting world of engineering, encouraging them to think differently, make mistakes and realise your engineering potential. Dyson engineers have designed 40 challenges specifically for students to encourage inquisitive minds and do just this. Tick off the challenge on the check sheet when you have completed it and take a photograph of your finished project. These challenges are suitable for both KS2 and KS3 pupils. Dyson Home Challenges
Art	Discover the latest local, national and international art competitions for young artists and be inspired to create your own amazing art pieces. Art Competitions for children from the Museum of Modern Art.

Reading	Year 5 Work through the “Developing reading preferences in Year 5 through personal reflection” lesson from the Oak National Academy: https://www.thenational.academy/pupils/programmes/english-primary-year-5/units/developing-reading-preferences-in-year-5/lessons/developing-reading-preferences-in-year-5-through-personal-reflection/overview In this lesson, you will explore a range of authors, illustrators, and poets and the creative teams that put together a text, and link these to your own reading experiences. Year 6 Work through the “Developing reading preferences in Year 5 through personal reflection” lesson from the Oak National Academy: https://www.thenational.academy/pupils/programmes/english-primary-year-6/units/developing-reading-preferences-in-year-6/lessons/developing-reading-preferences-in-year-6-through-personal-reflection/overview In this lesson, you will consider texts that you have personal connections with, and complete your own Desert Island Texts.
